Personal Logo Reflection/Interview

Tell me about the picture. (Where was the picture taken? Who took it? What did it originally capture? What was done to change or enhance it?)

Can you tell me more about the tagline/expression/text you selected? (What made you choose that? What does it mean? Where did the idea come from?)

Who is your logo/meme for or who is it directed at? Who might like or connect with the logo/meme? If you could gather an audience to see your logo, who would you want there?

Now that you've finished the project and had a chance to step away, is there anything you would do differently? Would you choose the same picture? Same font? Same message, etc.?

(Interviewer - are there similarities to yours? Please share examples.)
